### **Week 5: Individual Report**

**Next Milestone and the Target Date:** The current milestone I am working on is M2: User Authentication (Login, Signup, and Logout). My target date of completion is 2/29.

**Action items or the milestone that were completed since the previous meetup:**

- Milestone completed: M1: Setting up Github and Flask App
- For the Current Milestone I have completed the Basic UI Design for the: Signup Page and Login Page. I have also started the Initial Database Setup.

**List the blockers/reasons if the milestone was missed:** N/A

**My Progress:** I set up Github and Created a Flask App. I have also started the Initial Database Setup and completed the Basic UI Design for the: Signup Page and Login Page.

- How to check status of product
  - Navigate to dev/frontend. Once in the folder, run npm start. Go to <http://localhost:3000> to test the front-end
  - You can now interact with the product and see the status of it
- How to check weekly progress of product
  - Navigate to commit history:  
<https://github.com/4reebah/memory-math/commits/main/>
  - Here you can see the commits made, the time they were posted, and the author of each commit.
- See code changes
  - For a given commit on the commit history page click on the commit id to see code changes and more details

**List the feedback/insights from your colleagues/TA/instructor if any:**

- TA: Add Requirements.txt file to the backend folder
